**YARDLEY, PA, February 15, 2023**– Astarte Medical, a pediatric clinical intelligence company, announced today it has appointed Marcus Osborne to its Board of Directors. Based on his years of employer and payer experience as well as his work in major health initiatives at the regional and national levels, Mr. Osborne will be an impactful addition to the Company's Board.

Mr. Osborne currently serves as CEO of RightMove, a startup created by HSS whose mission is to make high-quality, patient-focused omnichannel musculoskeletal care available to all Americans. Previously, Mr. Osborne served as Senior Vice President of Health Transformation at Walmart where he was focused on furthering Walmart's goal of improving the healthcare industry in the U.S. by increasing access and affordability in the system for consumers, helping to launch Walmart Health and other key health initiatives. Prior to joining Walmart in 2007, Mr. Osborne served as the Chief Financial Officer of the Clinton Foundation Health Access Initiative, helping increase access to HIV/AIDS treatment in the developing world, and as a Senior Management Consultant for Alliance Consulting Group in Boston, Massachusetts. He attended Harvard Business School and received his Master's in Business Administration, graduating with honors.

"We are thrilled to add Mr. Osborne to our Board of Directors given his experience in transforming how care is delivered at Walmart Health and now leading RightMove," said Tracy Warren, CEO and Co-founder, Astarte Medical. "We look forward to his unique insights to help us reimagine pediatric complex care using evidence-based practices enabling hospitals to reduce the cost of care and improve outcomes for vulnerable infants and children."

"I'm excited to join the Astarte Medical Board," said Marcus Osborne. "The work Astarte Medical is doing to use technology and deep clinical insight to optimize the feeding and nutrition of infants and children is outstanding. Doing more to help children get off on the 'right foot' is critical, and Astarte Medical is providing amazing leadership in this space."

In addition to Mr. Osborne, Astarte Medical announced the promotion of Holly Clarke to Chief Operating Officer. Ms. Clarke joined the Company in January 2020 as VP, Operations and consistently contributes meaningfully to the business, leading efforts in talent management, internal infrastructure development, and customer engagement management. She led the charge on various ad hoc projects including the Company's participation in the KidsX Accelerator, which yielded two co-development agreements in the field of complex care and nutrition.

## **About Astarte Medical**

Astarte Medical is a clinical intelligence company providing digital solutions to support nutrition and feeding practices and protocol-driven care across pediatric populations. Its first product, NICUtrition® improves growth and clinical outcomes for preterm infants and impacts critical performance metrics for hospitals.
